Experience

Dottir Labs

Analytics Software Engineering Intern

Jan 2026 - April 2026

Somerville, MA

- Partnered with operations and research stakeholders to define reporting requirements across **40+ datasets**, delivering an automated pipeline that improved data quality for real-time monitoring.
- Delivered a self-service dashboard giving stakeholders **KPI visibility** across field-deployed sensor data, replacing manual consolidation with automated batch processing.
- Standardized a detection-threshold reporting framework with validation and fault-recovery controls, enabling **automated recurring reporting** and reducing manual analysis effort.

Indira Institute of Management

Logistics Analytics Intern

May 2022 - July 2022

Pune, India

- Forecast Suez Canal shipping traffic in **Power BI** and built route maps from port coordinates, identifying **alternate shipping routes** to reduce transit cost and protect service levels.
- Presented cost and transportation insights to internal and external stakeholders through executive-ready visualizations, supporting timely client-facing decisions.
- Owned the engagement end-to-end from problem framing and requirements definition through recommendation and handoff under tight deadlines.

Sahyadri Hospitals Pvt. Ltd.

Marketing Intern

Aug 2019 - Dec 2019

Pune, India

- Coordinated cross-functional digital initiatives and campaign reporting in **Advanced Excel**, improving online visibility by 20%.
- Conducted voice-of-customer analysis and presented findings to leadership, recommending changes that drove a **10% service improvement**.

Projects

CRM Profiling & Audience Segmentation - Compliance Intelligence (YSSL Inc.)

June 2026

- Profiled and cleaned six public data sources and consolidated **65,002 inflation-adjusted grant records** (2017–2024) into a **CRM-ready table of 24,350** recipient profiles.
- Built an **RFM segmentation model** classifying the base into four outreach segments, finding that the top segment (19% of recipients) received **74% of funding**.
- Designed a source-validation layer tracing every compliance recommendation to its verified government source, improving auditability and stakeholder trust.

Pharmacy Claims Data Warehouse & Reporting Analytics

November 2025

- Normalized raw pharmacy claims data to **3NF** and designed a **MySQL dimensional model** (1 fact, 4 dimension tables) with primary/foreign keys and referential-integrity rules.
- Wrote **SQL** reporting on drug utilization, cost by age segment, and latest fill per member using **CTEs and window functions**; fixed empty fill records that inflated utilization counts.

Certifications

Lean Six Sigma Green Belt (Anexas)
